**ELECTRIC
BIKE CO.**

EST. 2014

Select from our ready-to-ship top-seller or customize your cruiser

We created the world's safest, most comfortable e-cruiser, with the added option to customize for personal style.

Every e-cruiser is designed, engineered and built in-house by EBC technicians and mechanics, each part and component hand selected from our trusted suppliers from around the world. All EBC bikes are shipped from Newport Beach, CA, and ready to ride, right out of the box.

The factory direct to consumer model is new for our industry, but it's the only way to ensure a superior product without unnecessary import markups.

When you invest in one of our bikes, you're buying the highest quality, most comfortable – and safest – e-cruiser on the market. Why? Because while most e-bike brands outsource bike building, this is where we excel. When all decisions are made under one roof, we can optimize each component to perform just as well today as throughout the bike's entire lifespan. We're never just building a bike to unbox next week. We're also designing for the future with innovations to inhibit rust and stain resistance and sand and saltwater corrosion.

Bring your personal style to our award-winning e-cruisers with more than 40 colors and 50 builds.

ELECTRIC BIKE COMPANY CUSTOMIZATION OPTIONS

- Frame Color
- Fork Color & Style - Rigid or Suspension
- Fender Color & Style
- Chainguard Color

RANGE (MILES)
Up to 50

MAX SPEED*
28 mph

SMART SUPERCHARGER
2-3 hrs 3.5 Amp

*20 mph max. throttle & PAS (Factory settings)

Finally, a cool and rechargeable custom E-helmet™

EBC is the first company to deliver helmet innovation to the e-bike industry. EBC's Fully Customizable E-Helmets™ enable customers to select the size and color of the shell, trim, and strap.

Supremely safe and comfort that exceeds all expectation, our custom e-helmets have integrated front and rear lights with flashing modes. An easy magnetic buckle means easy on and easy off.

We offer more than 40 colors to choose from, as well as a 100 percent custom color match, upon request.

E-HELMET™ FEATURES

EBC E-Helmets™ are approved by the U.S. Consumer Product Safety Commission (CPSC). EBC seeks to provide consumers exceptionally safe, well-built products. The CPSC-approval underscores that our EBC E-helmets™ meet or exceed requirements to protect from head injuries, so you can feel reassured that the highest safety compliance has been met.

IMPROVED FIT:

It's hard to look cool in a helmet, but we figured it out. Our customizable EBC E-Helmets™ fit snugly and are exceptionally comfortable. Each helmets is enhanced with a rear headlock retention dial for improved overall safety and protection.

ENHANCED COMFORT:

Wearing a helmet that doesn't fit properly can be uncomfortable and dangerous. EBC's E-Helmets™ are made to your specifications and feature eight cooling air vents for better fit and comfort, for longer wear.

BETTER SIGHT AND VISIBILITY:

Featuring front and rear lights standard, E-Helmets provide optimal visibility while riding. Flashing modes improve a rider's ability to be seen as they maneuver through traffic and other busy areas, day or night.

INCREASED STYLE AND CUSTOMIZATION:

EBC custom E-Helmets™ can be made in a range of colors, styles and designs. This allows riders to personalize their helmet.

ADDITIONAL FEATURES:

- Easy magnetic buckle
- Vegan leather straps with black, tan color options
- Fully rechargeable with a USB-C cable provided
- Charge with the bike battery via the LCD USB port, located on the rear side of LCD screen
- The EBC Custom E-Helmet™ is CPSC safety-approved

Project Beautiful

In commemoration of the First Women's Tour de France that took place in Paris in 2022, EBC celebrates with a collection of colorful e-cruisers called Project Beautiful. Just as these forces of feminine strength incorporated creativity, color, and design into their sport, EBC incorporated similar flair, color, and personality into these expressive bikes. Project Beautiful utilizes unique, cutting edge paint technology, including airbrush and custom detailing in these designs.

SUPERNOVA

PURPLE PEARL

NEAPOLITAN

TWISTED GUAVA

BIKES INCLUDE EBC'S HIGHEST QUALITY FEATURES:

- Puncture resistant tires with reflective side walls and rust-proof Schrader valve
- Fully adjustable seat and seatpost for comfort
- AirTag Bell

 **ELECTRIC**
BIKE CO. EST. 2014

Custom-branded e-Cruisers and e-Helmets for Rental Fleets and Brands

Our Corporate Branding Program allows businesses and companies to order custom branded fleets of EBC e-cruisers and helmets. Bring camaraderie and easy, comfortable transportation to your HQ or campus with e-cruisers that embody your brand logo and personality.

Email us at info@electricbikecompany.com to learn more about Corporate Cruisers. EBC provides e-bike, helmet, and accessory inventory sales training and assistance, as well as highly responsive and knowledgeable U.S.-based, post-sale customer service.

FEATURES

Industry-leading LCD/Electronic Rider Waiver: All EBC e-bikes come standard with our latest LCD screens. Each time our bikes are powered up, the rider must "ACCEPT" the Terms and Conditions of use before proceeding. This is a first for the e-bike industry, and adds an additional layer of liability protection when the bike is ridden by third parties.

Complete Brand and Color Matching on E-Bikes and E-Helmets™: Our painters work with you to develop custom graphics and match any color required. Corporate branding and/or logos are baked into the e-bike frame and then sealed to prevent peeling, corrosion, or fading.

PERFECT FOR

- Corporate-branded Gifts
- Hotels/Resorts/Airbnb
- Golf Cart Communities
- RV Shows
- Boating Shows
- Farmers Markets
- Fishing and Outdoor Events
- School Events
- Police Departments/Security
- Companies
- Amusement Parks

Speak with our team of experts today for inspiration.

EBC Dealer Options

We offer a unique business solution to make selling easier than ever. Welcome to a world where we're here to help.

EBC offers revenue solutions and selling avenues to fit any dealer. You are not only selling our bikes, but joining our entire mobile and interactive EBC ecosystem with daily updates.

EBC has taken the necessary steps to protect the consumer and our dealer partners. This includes the use of only EBC-approved parts for repairs, the use of high-quality hydraulic disc brakes on all models (preferred by NHTSA over less safe cable brake alternative), a supercharger for rapid charging, increased warnings labels, instructions included in our Terms and Conditions, and an Authentication Card providing the bike's serial #, builder name, and inspector name for each e-bike.

DEALER BENEFITS

All bikes are custom built to order in California by local bike builders and engineers using both U.S. and off-shore sourced materials.

- 5-Year warranty on batteries
- 10-Year warranty on motors and frames
- No Royalties, License Fees, or Franchise Fees
- No Minimum Orders Required
- In-stock parts
- EBC bike builders and engineers available for video calls
- Delivery available to store or direct-to-customer
- Only small collection of showroom bikes needed
- Order in-stock top-sellers or customize E-Bikes and E-Helmets™
- Content, signs, videos, logos, social media posts, and promotional ideas provided

Option 1 EBC Design Wall

Upgrade your store and increase profits with our state-of-the-art EBC Design Wall. A fun, interactive screen provides customers the opportunity to design their own e-bikes in the comfort of your retail store. Sure to draw crowds, the EBC Design Wall has proven to generate \$1-5 million in annual revenue.

EBC DESIGN WALL INCLUDES:

- Touch-Screen Monitor - Size options: 75", 65", 55" or 43"
- Design Wall Components - custom color rear rack, front basket, battery case, fenders, chainguards, rims, and tire samples
- Sample paint chips of more than 40 colors
- Suggested wall space is 10' x 8'
- 8' x 4' for bike and platform
- 1 x Display Bike of Choice - (display platform may also be purchased)
- 1 x Demo Bike of Choice
- Custom Helmets & Display Rack

"We were one of the first dealers to have the interactive design wall. We have found it to be very valuable in helping customers choose their options and colors."

Let's Glow LED, CLEARWATER, FLORIDA

Option 2 EBC Design Kiosk

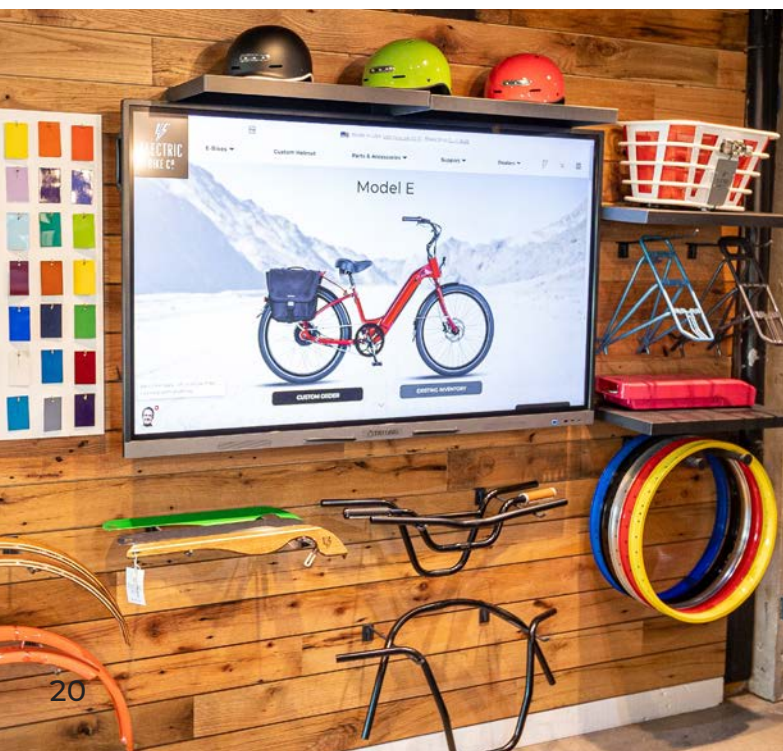

Compact, simple, and revenue generating, the EBC Mobile Design Kiosk offers a unique user-experience similar to the Design Wall for smaller spaces. Much like our EBC Design Wall, the kiosk allows customers to design their own EBC e-cruiser with an interactive touch screen display. Perfect for dealers wanting to elevate their showroom floors with the EBC brand and an interactive customer experience, the kiosk complements our display bike on the wooden platform and custom helmet stand with 16 color helmets.

EBC DEALER KIOSK INCLUDES:

- Dealer Kiosk with interactive 32" touch screen display and stand
- Mobile battery or Plugin power source options
- 2' x 2' space for Kiosk
- 8' x 4' space for bike and platform
- Height 6' x Width 2' x Depth 2' - Helmet Stand
- Plug & Play and automatic updates
- 1 x Display Bike of Choice - Optional Platform
- 1 x Demo Bike of Choice
- Custom Helmets Display Rack with 16 helmets

"The TV order process makes it fun and easy to build their bike and to touch and feel all the accessories makes it an easy choice to pick colors and equipment."

Moke America, VIRGINA BEACH

Option 3 EBC Mobile Enterprise

Our EBC Mobile Enterprise enables entrepreneurs to own their own business and sell fully customizable e-cruisers, E-Helmets™, and EBC accessories from anywhere. Your EBC Corporate Sprinter Van, including point of sale kiosk and credit card processing, provide the opportunity to generate revenue with minimal overhead. Fully mobile and flexible, dealers choose their own hours, events, customers, and location(s). EBC provides everything else, including product, sales training, and post-sale U.S.-based customer service. Already an EBC dealer? The mobile addition allows you to expand your business to events, functions, and personal house calls.

TAKING EBC BIKES ON THE ROAD:

- Trade Shows
- Community Events
- Farmers Markets
- Holiday Boutiques
- Individual Appointments
- Resorts/Hotels
- Airbnb Sales

EBC MOBILE ENTERPRISE INCLUDES:

- Optional Corporate Sprinter Van
- Mobile battery-powered kiosk for designing e-bikes and processing orders on-the-go
- Display EBC e-bike on display platform
- Demo e-bike
- Helmet display stand with 16 custom color display helmets
- Accessory stand with EBC-branding and Basil accessories
- Tool Kit (Chargers and Emergency Parts)
- Chair and table
- Optional branded trailer for additional bike inventory
- EBC brochures
- EBC business cards
- Access to all EBC online marketing content

EBC Accessories + MIK Universal Click System

All EBC e-cruisers and racks have a built-in MIK accessory adaptor plate enabling any MIK accessory to be attached with just one click. MIK, and parent company Basil, have hundreds of accessories to choose from. Build your collection of accessories and just click and go!

Style, substance and no third-parties.

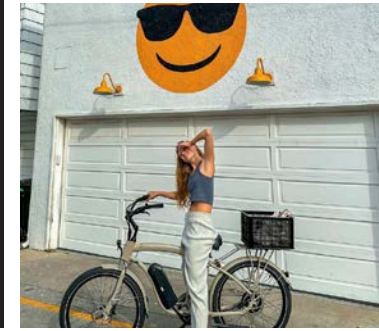

Unlike other companies, EBC e-bikes are assembled in-house and built to order. This unique process allows us to select the highest quality materials and accessories from around the globe.

Our experts, engineers, designers, and customer service associates are housed in the same Southern California buildings as our production, painting, packing, testing, and inspection teams. This gives us quality control at every stage of the process, ensuring every e-cruiser meets rigorous EBC standards.

Our bikes are designed to be universally serviced, so that any mechanic can address any maintenance issue. If your bike requires service, we have the replacement parts and tools onsite to ship directly. Simply switch out the parts or take them to your local bike shop to perform the repairs.

More than a brand, we hope our customers discover new worlds on our cruisers.

The EBC Advantage

50 Reasons Electric Bike Company E-Bikes Surpass All Other E-Bike Brands:

EBC BIKES ARE BUILT IN THE USA

(Parts, Tools, Engineers, 24/7 Customer Service) That's right! We build all of our bikes in California, using only the best-in-class local and global materials. Our extensive team of experts builds each bike one-by-one for our customers, ensuring the highest quality and precision build every time.

FULLY CUSTOMIZABLE

EBC is the only e-bike company that allows customers to build their e-cruisers from the frame up. You choose the model (frame style), the color, and over a dozen other e-bike features to match your unique riding needs and style. Color options are limitless.

28 MPH MOTOR CAPABILITY WITH 10-YEAR WARRANTY

Our industry-leading warranty goes above and beyond! With 24/7 customer service, we are there for our customers anytime they may need assistance. We always resolve problems and provide a solution. The satisfaction of our customers is always our top priority.

HIGHEST QUALITY BATTERY CELLS WITH 5-YEAR WARRANTY

We choose only the highest-quality batteries for dependability and safety. All batteries come with a 5-year warranty giving buyers 100 percent peace of mind when purchasing our e-bikes. Battery options include 48V, 9 Ah to 48V 36 Ah (with dual battery option).

ARRIVES FULLY BUILT

One of the only e-bikes sold in the U.S. that requires no assembly upon delivery. EBC e-bikes arrive fully built on a shipping pallet. Just turn and tighten the handlebars, and you're ready to ride.

LONG-RANGE

All EBC e-bikes have optimal long-range, but we are the only company to offer additional upgrade options, increasing the riding range to a possible 200-miles for some models. Translation> travel farther on a single charge than other brands of e-bikes.

SHIPPING

EBC ships to all 50 states, Canada, and anywhere else in the world.

CLASS 2 E-BIKE WITH INSTRUCTIONS ON CONVERTING TO CLASS 1 OR CLASS 3

EBC bikes come standard as Class 2, but EBC provides instructions and instructional videos on converting your e-bike to a Class 1 or Class 3 to meet your specific needs and/or your local e-bike laws and ordinances.

HYDRAULIC DISC BRAKES

Only the highest quality brakes are included on our e-bikes. EBC disc brakes provide more stopping power than mechanical disc brakes.

PUNCTURE RESISTANT TIRES WITH REFLECTIVE SIDEWALLS

Select either black or brown/white wall standard tires, or select the Continental upgrade option. EBC Rhino tires are 3" wide with 3 mm of puncture resistance standard on Model R and J.

TWO WHEEL SIZE OPTIONS

26" or 24". Standard 24" on Model J. Rims - 26", optional red, black, or silver. 24" black or silver.

COLOR DISPLAY WITH USB PORT, AUTOMATIC LIGHT SENSOR, INTEGRATED LIGHTS & UPGRADED TECHNOLOGY PACKAGE

Our latest integrated innovation includes brake lights, electric horn, turn signals, high/low beam, and an auto-light sensor that provides safety for low-light riding when you forget. Lights will turn on and off, turn on automatically, or can be continuous when needed. You can enjoy added visibility when riding at night or in low-light conditions.

BEST FRONT BASKET IN THE BUSINESS

Bolted to the frame to be more secure, the basket can support up to 65 lbs of weight. Black or silver stock or option to custom paint in any color either one or two-tones by painting the outside and inner mesh liner a different color

FENDER OPTIONS

Steel fender offerings come in three stock colors or can be customized in any color. Wooden fenders made of maple and walnut with 3 layers of weatherproof coating are also available, as well as new low-profile fenders on Model R.

FRONT FORK

Rigid or front fork suspension option. Fork suspension standard on Model R and F. Comes in 3 stock colors or optional custom colors painted in any color.

STEM

Integrated 120 mm, adjustable from 0 to 60 degrees.

SADDLE

300x300x100mm thick, high density foam. Elastomer bumpers for support and comfort. Optional black or tan.

DRIVETRAIN

Direct Drive with 16T cog and 58T chainring or optional 7-speed derailleur; 170 mm forged alloy crankset; 16T cog and 60T chainring also now available.

ANTI-THEFT ALARM SYSTEM

Built-in and ready to go with integrated electric horn, our Anti-Theft Alarm System is offered on all EBC e-bikes. Adding a layer of security for our bike owners, the system reduces the likelihood of theft and financial loss. EBC alarm can be active for up to one week even if the bike is turned off, because it is powered by its own separate battery.

SMART SUPERCHARGER

EBC e-bikes recharge within 2-3 hours with 3.5 amp smart charger. 6-9 hours for C/S (internal charging system with retractable cord or 3-4 hours with 48V 3.5 amp charger) The charger turns itself off as soon as the battery is fully charged, so it can never be overcharged.

EBC TOOL KIT

Included with every bike purchase, contains all the tools needed to service and repair your bike on the road. Upgraded kit includes hand pump, CO2 canister, and self-sealing tire gel.

EBC QC AUTHENTICATION CARD

Identifies who built and inspected your bike, and provides your bike's serial number.

COLOR LCD SCREEN

The EBC LCD Screen comes with multiple features, including trip & lifetime odometers, and a USB port in the back for charging your cell phone, speakers or headsets, as well as the light on your EBC custom E-Helmet™.

REQUIRED USER ACCEPTANCE OF TERMS AND CONDITIONS BEFORE EVERY RIDE

An important layer of liability protection for dealers (reduces the risk of staff forgetting to get signed rental and demo waivers), Airbnb's, and individuals allowing others to ride their e-bikes, this innovative LCD screen function requires rider to accept terms and conditions prior to every ride. Currently only on Project Beautiful bikes, and upgraded tech packages.

BATTERY PERCENTAGE INDICATOR

LCD screen now clearly indicates percentage of battery charge. Currently only on Project Beautiful bikes, and upgraded tech packages.

2 THROTTLE OPTIONS

Thumb or Twist throttle options.

FOUR HANDLEBAR OPTIONS

Cruiser style, Mountain Bike, BMX Riser, and Chopper options.

PEDESTRIAN WARNING BELL

Useful warning bell with a hidden space to insert an AirTag to track location of your e-bike in the event of attempted theft.

TORQUE SENSOR NOW AVAILABLE ON ALL MODELS

A cadence-based system measures if you're pedaling, while a torque sensor measures how hard you're pedaling and determines how much assistance the motor should give you. Therefore, a torque-based option allows the rider to feel as if his or her e-bike keeps up with them.

CORPORATE BRANDING

EBC can match the exact color of a corporation's logo or color scheme. Logos applied to EBC e-bikes are not stickers. The logos are embedded in the paint, therefore they will not peel, corrode, or fade. Ideal marketing and advertising investment and potential tax write off.

MIK CLICK RACK SYSTEM

EBC Models C and S now come standard with MIK rear racking system. MIK rack may be easily added to all other Models. Simply click a MIK accessory into locking rack and remove with an adaptor key (additional option – use adaptor plate and click in your own accessory).

CRUISER UTILITY E-BIKES

EBC e-bikes can transport up to 420 lbs, including rider's weight. Every e-bike has front and back cargo attachment points and are categorized as Cargo Bikes with eligibility for applicable Cargo Bike Tax credits.

SPOKES

13-gauge stainless steel, rust resistant, black or silver with brass nipples.

NEW EPT CHAINS

Exceptionally rust and dirt resistant (must pass a 650-hour salt test), new EPT Chains are 10x more durable than regular chains and easy to clean.

SEALED BEARINGS

Designed for longevity and safety over time and essential for service and maintenance.

KICKSTAND

Motorcycle grade non-slip sole, wide reinforced rubber foot prevents slipping/sinking.

LARGE PLATFORM PEDALS

Sleek design with maximum platform space for foot comfort.

ORDER CHANGE, CANCELLATION POLICY, AND 30-DAY RETURN POLICY

Changes to bike design can be made up until the bike has shipped. Orders may be canceled prior to shipping for a full refund.

CHAINGUARD

Comes standard with a steel chainguard in 3 stock options of black, white, or red, or custom color option. Optional wooden chainguard made of maple and walnut with 3 layers of weather proof coating. (Chainguard is not available on Models R or E.)

SEATPOSTS

Three seatpost options. Standard or optional suspension seatposts that offer shock absorption underneath the seat. (Satori and EBC suspension seatpost designed for riders 5'8" and above).

LIGHTS

Every e-bike comes standard with front and rear lights for safe riding at night.

FRAME

Aluminum 6061 hydro-formed frame with a 10-year warranty. Constructed via a seven-step process including painting, cleaning, base primer, three coats of paint, and two coats of clear sealant. A heat treatment gives extra strength and durability.

EBC PAINT FACTORY

Our in-house factory paints frame and components any color the customer wants using Sherwin Williams Automotive paint to spray paint every custom color bike.

CUSTOMER RESOURCES

Abundant amount of customer resources online with FAQs, manuals, and YouTube channel for bike maintenance, updates, etc.

HEAT SHRINK

To give the bike a cleaner look without having wires sticking out EBC e-bikes feature heat shrink wrapping near the handlebars.

WATER RESISTANT PLUG & PLAY SYSTEM

Developed for ease of replacement, maintenance, and service.

AVAILABILITY OF REPLACEMENT PARTS

Since EBC builds in the USA, all replacement parts are ready and immediately available to dealers and customers.

USA-BASED CUSTOMER SERVICE TEAM

Real, U.S.-based people provide post sales and customer support by phone, FaceTime and LiveChat.

CRUISE CONTROL OPTION IN THROTTLE MODE

Handy if you're trying to make sure you stay within the speed limit on a bike path.

**ELECTRIC
BIKE CO.**
